

KEY INVESTOR INFORMATION

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

Ronit Global Opportunities UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited USD Institutional Class Founder Shares (IE00BD87S654)

Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek capital appreciation over the long term by investing on a long and/or short basis.

The Sub-Fund shall invest on a long and/or short basis, in equities, equity-related securities and fixed income securities either directly or indirectly through the use of derivatives. In broad terms, long investments mean that the Sub-Fund will benefit if prices go up, but lose if prices go down.

The Sub-Fund will have a global scope but will be principally focused on emerging markets. The Sub-Fund does not have a particular industry or sector focus.

It is expected that by using derivatives, the Sub-Fund's long positions will typically be approximately 66% of the net asset value of the sub-fund and its short positions approximately 33%.

The Sub-Fund may also invest in collective investment schemes and exchange traded funds which provide exposure to the securities and other investments listed above and that are consistent with the investment objective of the Sub-Fund.

The Sub-Fund may also use derivatives for currency hedging and

investment purposes. Derivatives used may include futures, contracts for difference, options, warrants, credit default swaps and/or forward foreign exchange contracts.

You may sell your shares in the Sub-Fund on any Wednesday that banks are open in Ireland, the United Kingdom or the United States as well as on the last business day of every month. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one day prior to the business day on which you want to sell.

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are denominated in US Dollars and the Sub-Fund is in Euro, forward foreign exchange contracts are used to attempt to eliminate the effects of changes in the currency exchange rates.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk category for this Sub-Fund is set at 7. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Credit Risk: The Sub-Fund may invest in bonds. The Sub-Fund is therefore exposed to the risk that the issuer may become unable to meet its financial obligations or declare bankruptcy.

Liquidity Risk: The Sub-Fund may not be able to sell an investment at the time and price that is most beneficial to the Sub-Fund and may be unable to raise cash to meet redemption requests as a result.

Emerging Markets Risk: Emerging markets that are at an early stage of development typically experience higher levels of return fluctuation than well-established economies. Political and economic challenges may

temporarily result in illiquid markets, higher volatility in process and currencies, higher inflation, greater controls on foreign investment, less protection of assets and less developed laws to protect investors.

Leverage Risk: The Sub-Fund uses derivatives to both reduce or "off-set" risk and for investment purposes.

Derivatives may be used to expose the Sub-Fund to the potential of a greater return (achieve/create leverage) but this entails a greater risk for your investment.

Short Selling Risk: The Sub-Fund will create synthetic short positions through the use of derivatives. Short positions behave differently from long positions, and the Sub-Fund can for example come under pressure to close out short positions at short notice, and before an offsetting long position can mature. This can create unexpected losses from positions.

Counterparty Risk: A counterparty may fail in paying the proceeds of sale of assets to the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	2.35%
Charges taken from the fund under certain specific conditions	
Performance fee	15.00% of the increase in the NAV per share over the previous highest NAV per share on which performance fee was paid.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charge figure is based on an estimate of the charges. This figure may vary from year to year. It does not include portfolio transaction costs or performance fees.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

There is insufficient data to produce a useful indication of past performance for the Share Class.

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in US Dollars.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2016. This share class has yet to launch.

Practical Information

About the Sub-Fund

The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.

Ronit Global Opportunities UCITS Fund is a Sub-Fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other Sub-Funds on MontLake UCITS Platform ICAV.
