

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Conquest STAR UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited CHF Institutional Class Founder Pooled Shares (IE00BDRHPB04)

Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek capital appreciation over the long term.

The Sub-Fund will use futures and forward foreign exchange contracts to take long and short exposure to shares, bonds, interest rates and currencies. In broad terms, long investments mean that the Sub-Fund will benefit if prices go up, but lose if prices go down. Conversely, short investments mean that the Sub-Fund will benefit if prices go down, but lose if prices go up.

The Sub-Fund may also invest in collective investment schemes and exchange traded funds which also provide exposure to these asset classes in a way that is consistent with the investment objectives and policies of the Sub-Fund.

The Sub-Fund does not have a particular industry, sector or geographic focus and it invests on a global basis. In particular, the Sub-Fund's exposure is expected to be obtained mainly by buying or selling derivative contracts on major market indices, interest rates and currencies, rather than by buying or selling specific securities.

You may sell your shares on any day that banks are open in

Dublin, Ireland and New York, United States of America. You must submit your application to the Sub-Fund's administrator before 1.00 p.m. three days prior to the business day on which you want to sell your shares.

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are in Swiss Francs and the fund is in US Dollars, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates against the US Dollars.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The Sub-Fund is in category 7 as it invests in securities that can vary significantly in price from day to day due to a variety of factors. Therefore the chance to make large gains means the risk of suffering large losses.

The risk category for this fund is set at 7. It is calculated in line with EU regulations and is based on the risk limit for the fund.

Leverage Risk: The Sub-Fund uses derivatives to both reduce and offset risk and for investment purposes. Derivatives may be used to expose the Sub-Fund to the potential of a greater return (achieve/create leverage) but this entails a greater risk for your investment.

Liquidity Risk: The Sub-Fund may not be able to sell an investment at the time and price that is most beneficial to the Sub-Fund and may be unable to raise cash to meet redemption requests as a result.

Credit and Counterparty Risk: The Sub-Fund will invest in derivatives and may invest in bonds. The Sub-Fund is therefore exposed to the risk that the counterparty to the derivative or the issuer of the bond may become unable to meet its financial obligations or declare bankruptcy.

Short Selling Risk: The Sub-Fund will create synthetic short positions through the use of derivatives. Short positions behave differently from long positions, and the Sub-Fund can for example come under pressure to close out short positions at short notice, and before an offsetting long position can mature. This can create unexpected losses from positions that might otherwise have been seen as low risk or well hedged.

When categorizing the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "*Special Considerations and Risk Factors*" section of the Prospectus.

A **category 1** fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 fund is not twice as risky as a category 1 fund.

The category is based upon the annual calculation of the Sub-Fund's risk calculation relevant to the nature of the types of instruments the Sub-Fund invests in. The risk category shown is not guaranteed and may change over time.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	2.21%
Charges taken from the fund under certain specific conditions	
Performance fee	15.00% of the increase in the NAV per share over the previous highest NAV per share on which performance fee was paid.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charge figure is based on an estimate of the charges. This figure may vary from year to year and does not include performance fees.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

There is insufficient data to produce a useful indication of past performance for the Share Class.

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in Swiss Francs.

Past performance is not a reliable indicator of future results.

The Sub-Fund has yet to launch.

Practical Information

About the Sub-Fund

The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.

Conquest STAR UCITS Fund is a Sub-Fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other funds on MontLake UCITS Platform ICAV.
