MONTLAKE

Purple Global Adaptive Equity UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MLC Management Limited AUD Institutional Class B Shares (IE00BDTYLJ98)

Objectives and Investment Policy

The Sub-Fund's objective is to increase the value of your shares over the long term.

To achieve this objective, the Sub-Fund will invest in shares of companies (equities) and other types of investments that are referenced to equities (known as equity-linked securities). The Sub-Fund will focus on companies from the U.S., Japan, Europe and the U.K.

The Sub-Fund will analyse mid to large sized capitalization companies which are constituent companies of S&P 500 Index; Nikkei 225 Index; STOXX® Europe 600 Ex UK Index; and FTSE All-Share Index (the "Indices"). The Sub-Fund will invest, following the analysis performed, in the top 20% of the companies perceived by the Sub-Investment Manager as the most attractive in order to create a portfolio from each of the Indices. The Sub-Fund will also apply a risk management approach through the use of derivatives to reduce the overall volatility of the portfolio of the Sub-Fund.

The Sub-Fund may invest directly in a company by buying equity securities, or may invest indirectly through equity related securities, collective investment schemes and derivatives. The Sub-Fund may also use derivatives to hedge against market risk. Derivatives used by the Sub-Fund may include futures, options, swaps and forward currency contracts.

The Sub-Fund may also invest in debt securities and money market instruments. The debt securities and money market instruments may be denominated in various currencies and may be issued by governments, government agencies and credit institutions.

You may sell your shares on any day that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's Administrator no later than 12.00 p.m. on the business day on which you want to sell.

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are denominated in Australian Dollars and the Sub-Fund is in Sterling, you will be subject to the risk that the value of their shares will fluctuate against the base currency of the sub-Fund.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk category for this Sub-Fund is set at 4. It is calculated in line with the regulations and is based on a combination of the historic performance of the Sub-Fund since launch and an index or benchmark representing the performance of the assets in which the Sub-Fund typically invests for the period before launch.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Credit Risk: The Sub-Fund may invest in debt securities or money market instruments. The Sub-Fund is therefore exposed to the risk that a credit institution may become unable to meet its financial obligations or declare bankruptcy.

Counterparty Risk: A counterparty may fail in paying proceeds of sale of assets to the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.

Derivatives Risk: The use of derivatives by the Sub-Fund may result in greater returns but, at the same time, will entail a greater risk for your investment. As the Sub-Fund may use derivatives, it may be exposed to the risk that parties it enters into transactions with fail to meet their obligations, leading to losses being incurred by the Sub-Fund.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	0.59%
Charges taken from the fund under certain specific conditions	
Performance fee	None

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charge figure is based on an estimate of the charges. This figure may vary from year to year. It does not include portfolio transaction costs.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

There is insufficient data to produce a useful indication of past performance for the Share Class.

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in Australian Dollars.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2016. This share class has yet to launch.
